We believe that all people have the right to a high quality, fair and affordable education. FSNLC provides high quality language, literacy, general education and computer classes; as well as a wide range of recreational classes and social support programs.

For people who speak another language or come from another country and culture, learning the language of the country is very important. There are four key principles of assessment which we use. It should be valid, reliable, fair and flexible.

Assessment is:

1. **Valid** when it assesses what it claims to assess.
2. **Reliable** when it is consistent in all situations and with all learners.
3. **Fair** when it places all learners on equal terms.
4. **Flexible** when it can accommodate all delivery modes and the needs of learners.

There will be a number of assessment tasks for each Unit. Each assessment task measures the required aspects of that unit. Assessors will use a combination of assessment methods depending on the needs of the student and the requirements of the course.

These may include:

- Demonstration
- Observation
- Written/oral tests
- Role play
- Skills/Challenge testing
